## **Zur Lebens- und Berufsbildungssituation von türkischen Jugendlichen**

Vor dem Hintergrund, daß die Mehrzahl der ausländischen Wohnbevölkerung türkischer Nationalität ist, sind mehrheitlich (n =1.855) türkische Jugendliche befragt worden. Analog zu den anderen Nationalitätenanalysen sind auch hier die gesamten Strukturdaten im Anhang abgedruckt und in diesem Kurzbericht werden nur einige prägnante und besonders aussagekräftige Daten im Vergleich zu den anderen Nationalitäten analysiert.

Die Geschlechterverteilung ist bei den türkischen Befragten weniger ausgeglichen als bei den anderen:

**Tabelle 1: Geschlechterrealation - in % -**

|              | andere Nationalitäten | Türken       |
|--------------|-----------------------|--------------|
| männlich     | 53,5                  | 57,4         |
| weiblich     | 46,5                  | 42,6         |
| <b>Total</b> | <b>100,0</b>          | <b>100,0</b> |

n = 3.407

Offentsichtlich waren junge Türcinnen seltener als die anderen Nationalitäten zu einem Interview bereit. Mit 35 % liegt der Schwerpunkt der Altersstruktur bei den befragten jungen Türken zwischen 15 und 18 Jahren.

Grafik 1: Altersstruktur der jungen Türken - in % -

Die Unterschiede in der Altersstruktur zur Kontrollgruppe sind nicht sehr gravierend, die jungen Türken in dieser Stichprobe sind jedoch leicht jünger. Trotzdem sind sie im Vergleich zu den anderen mit 31 % gegenüber 23 % häufiger verheiratet, d.h. es ist zu vermuten, daß junge Türken im Vergleich zu den anderen in einem früheren Alter heiraten.

Während knapp die Hälfte der anderen Nationalitäten entweder hier geboren wurde oder im Kleinkindalter in die Bundesrepublik eingereist ist, beträgt dieser Anteil bei den türkischen Befragten knapp ein Drittel.

Tabelle 2: Einreisealter - in % -

|                    | andere Nationalitäten | Türken |
|--------------------|-----------------------|--------|
| in der BRD geboren | 28,0                  | 18,1   |
| bis 3 Jahre        | 17,8                  | 13,3   |
| 4 - 6 Jahre        | 11,2                  | 14,6   |
| 7 - 10 Jahre       | 9,1                   | 17,2   |
| 11 - 15 Jahre      | 6,0                   | 17,4   |
| 16 Jahre und mehr  | 27,9                  | 19,4   |
| Total              | 100,0                 | 100,0  |

n = 3.314

Türkische Jugendliche sind signifikant häufiger im schulpflichtigen Alter in die Bundesrepublik eingereist. Sie erlebten mit diesem Wechsel während der Schulzeit häufiger als die anderen Befragten einen Bruch in ihrer Schulbildung. Während die anderen Nationalitäten in der Regel entweder vor Beginn der Einschulung oder aber nach Beendigung der Schulpflicht einreisten, kam immerhin mehr als ein Drittel der jungen Türken im Alter der Primarstufe bzw. Sekundarstufe I.

### Schulbildung

Vor diesem Hintergrund ist der Anteil der türkischen Jugendlichen, die in der Bundesrepublik gar nicht zur Schule gegangen sind niedriger als bei den anderen. Sie können zwar häufiger einen Schulbesuch in der Bundesrepublik nachweisen, gingen allerdings deutlich weniger lange hier zur Schule. 42 % der befragten Türken haben ihre Schulzeit nicht vollständig in der Bundesrepublik durchlaufen, bei den anderen Nationalitäten beträgt dieser Wert 25 %. 55 % der Türken und nur 48 % der Kontrollgruppe haben im Herkunftsland eine Schule besucht. Betrachtet man die Dauer des Schulbesuchs im Herkunftsland, so zeigt sich eine ähnliche Situation wie bei der Schulbesuchsdauer in der Bundesrepublik. Analog der Verteilung bei den Einreisealtersgruppen zeigt sich, daß mit 12 % sehr viel weniger Türken (Kontrollgruppe: 22 %) die Schule im Herkunftsland 9 Jahre und mehr besucht haben. In der Bundesrepublik gingen junge Türken im Vergleich zu den anderen Nationalitäten eher auf die Sonder- und Hauptschule und vor allem weniger auf ein Gymnasium.

**Tabelle 3: Schulbesuch in Deutschland - in % -**

|                  | andere Nationalitäten | Türken |
|------------------|-----------------------|--------|
| Grundschule      | 44,6 , *              | 43,9   |
| Hauptschule      | 39,5                  | 52,8   |
| Sonderschule     | 2,0                   | 4,0    |
| Realschule       | 18,5                  | 18,8   |
| Gymnasium        | 18,1 *                | 13,2   |
| Gesamtschule     | 6,3                   | 7,4    |
| sonstige Schule  | 3,8                   | 5,3    |
| kein Schulbesuch | 27,1                  | 19,1   |

Mehrfachnennungen

n = 3.407

Tendenziell schließen die jungen Türken ihre Schulbildung mit niedrigeren Abschlüssen ab. Der Anteil der Jugendlichen, die keinen Abschluß oder aber nur den Haupt- bzw. Sonderschulabschluß erreichen ist bei ihnen höher, während sie tendenziell weniger häufig den Realschulabschluß bzw. das Abitur erreichen.

**Tabelle 4: Schulabschluß in Deutschland - in % - (ohne Schüler)**

|                     | andere Nationalitäten | Türken |
|---------------------|-----------------------|--------|
| Hauptschulabschluß  | 49,1                  | 51,6   |
| Sonderschulabschluß | 2,1                   | 4,1    |
| Realschulabschluß   | 21,6                  | 17,4   |
| Abitur              | 15,4                  | 8,6    |
| sonstiger Abschluß  | 3,1                   | 5,2    |
| kein Abschluß       | 8,7                   | 13,1   |
| Total               | 100,0                 | 100,0  |

Neben diesen festgestellten Vorurteilen der Deutschen, erleben türkische Jugendliche mehr Nachteile als andere Ausländer der Kontrollgruppe. So geben nur 49 % der Türken an noch nie Nachteile als Ausländer in der Bundesrepublik erlebt zu haben (KG: 69 %). Offensichtlich werden türkische Jugendliche stärker als andere von der deutschen Außenwelt abgelehnt. Trotzdem sind türkische Jugendliche im gleichen Umfang wie andere Nationalitäten bereit, die deutsche Staatsbürgerschaft anzunehmen.

**Tabelle 26: Annahme der deutschen Staatsbürgerschaft - in % -**

|                | andere Nationalitäten | Türken |

### ***Eine kleine Orientierung - Zum Nutzen türkischer Ausbildungsordnungen in deutscher Übersetzung***

Die rund 350 Ausbildungsordnungen in der Bundesrepublik Deutschland für ebenso viele staatlich anerkannte Ausbildungsberufe sind ein hochgradig professionalisiertes kombiniertes Informations- und Handlungsinstrument. Es sucht in der internationalen Berufswelt seinesgleichen und häufig wurde es - wenn auch bisher vergeblich - in seiner Komplexität nachzuahmen versucht.

Die **Informationsfunktion** der Ausbildungsordnungen besteht zum einen darin, daß an einer dualen Berufsausbildung interessierte Jugendliche und ihre Eltern sich dadurch über die künftigen Anforderungen einer Ausbildung informieren können. Zusammen mit den entsprechenden Übersichten über Verdienstmöglichkeiten als Auszubildende hat man auch für die einzelnen Ausbildungsjahre konkrete Anhaltspunkte für das zu erwartende Einkommen während der Ausbildung (Ausbildungsvergütungen). Nimmt man das Informationssystem GABI (Grundinformationen der Ausbildung) der Bundesanstalt für Arbeit noch hinzu, dann erhält man eine komplette Übersicht über weitere Berufsperspektiven, Weiterbildungs- und Aufstiegsmöglichkeiten, somit über die gesamte denkbare berufliche Karriereleiter eines Erstausbildungsberufes und verwandter Berufe.

Für Betriebe, die bislang noch keine Berufsausbildung nach dem Berufsbildungsgesetz durchführen bieten die Ausbildungsordnungen eine Übersicht über die Kenntnisse und Fertigkeiten, die von den Ausbildungsbetrieben in den jeweiligen Ausbildungsberufen zu vermitteln sind. Damit haben sie nicht nur eine Grundlage für die Anforderungen an das zu beschäftigende Ausbildungspersonal sondern auch eine "Informationsplattform" über die zu beschaffenden Ausstattungen (Maschinen, Werkzeuge, Apparaturen, Büroeinrichtungen u. dgl.), um eine Ausbildung systematisch im jeweiligen Berufsfeld und Wirtschaftssektor durchführen zu können.

Die **Handlungsfunktion** der Ausbildungsordnungen besteht darin, daß für den Auszubildenden und den Ausbildungsbetrieb und sein Ausbildungspersonal mit den in der Ausbildungsordnung enthaltenen beiden Systemteilen "betriebliches" und "berufsschulisches Curriculum" (berufsschulischer Rahmenlehrplan) curriculare Bausteine für die einzelnen Ausbildungsphasen und -abschnitte vorgegeben werden. Beide Adressaten erhalten darüber Handlungsinformationen über das zu Lernende bzw. das zu Vermittelnde hinsichtlich der fachlich-stofflichen Inhalte. Damit liefert ihnen die Ausbildungsordnung den fachlichen und zeitlichen „Baukasten“, dessen Bausteine in Theorie und Praxis zu beherrschen sind, will der Auszubildende die Abschlußprüfung erfolgreich anmelden und angehen. Der Ausbilder seinerseits weiß damit, was er von Schritt zu Schritt an Fach- und Theorieinhalten theoretisch und praktisch zu vermitteln hat.

Man könnte die - recht gut abgesicherte - These wagen, daß im Prinzip jeder Auszubildende anhand der Ausbildungsordnung und ihrer Gliederung auf Grundlage von ebenfalls hochgradig professionalisierten Ausbildungshandbüchern seine Ausbildung virtuell durchlaufen könnte. Und erste Ansätze gibt es dazu bereits, die sich inzwischen der in vielen Berufsbereichen weit entwickelten multimedialen Instrumente und Techniken bedienen.

Doch zurück zur Bedeutung der Ausbildungsordnungen im Kontext dieses kleinen Informationsbandes. Auch in der Türkei gibt es - fast - vergleichbare Ausbildungsordnungen. Was kein Zufall ist, sondern historisch insbes. dem Wirken von deutschen Wirtschaftsfachleuten und -beratern während ihres Exils in der Nazizeit zu verdanken ist. Insbesondere der ehemalige Oberbürgermeister Berlins, Reuter, hatte bereits in den dreißiger Jahren dieses Jahrhunderts dafür geworben, daß die Berufsausbildung nicht-staatlichen Organisationen in die Hände gelegt wird. Schon früh hat er für die Errichtung von Kammern in der Türkei plädiert und die Anbindung der Berufsbildung - vergleichbar wie in Deutschland um die Jahrhundertwende - an die Kammern. So ist es nicht verwunderlich, daß in der Türkei neben der informellen Ausbildung und der schulischen in einem allerdings relativ kleinen Sektor ein Quasi-Duales Berufsbildungssystem existiert. Daran haben dann Beratungsaktivitäten der unterschiedlichen deutschen Entwicklungshilfeorganisationen verstärkt Anfang der achtziger Jahre angeknüpft. Das BIBB hat bereits früh Ende der siebziger Jahre Curricula und didaktische Materialien in die Türkei "exportiert" und dann Mitte der achtziger Jahre systematisch an der Weiterentwicklung und dem Systemaufbau der dualen Berufsbildung in verschiedenster Weise durch indirekte Beratung aber auch die Entsendung eines Experten beigetragen. In diese Zeit fällt auch die Quasi-Adaption des deutschen Berufsbildungsgesetzes in der Türkei und auch der Handwerksordnung - insbes. hinsichtlich der Funktionalität der formalisierten beruflichen Bildung. Kurz, die Türkische Republik kennt ein duales berufliches Ausbildungswesen samt Berufsbildungsgesetz und der Rollenzuweisung der Durchführung und Prüfung in der Berufsbildung an die Kammern in Handwerk, Kleinindustrie, Handel, Industrie und Schifffahrt - um die wichtigsten diesbezüglichen Sektoren zu nennen.

Im Laufe dieser Entwicklung hat sich das Nationale Türkische Erziehungsministerium dazu entschlossen, wegen der landesweiten Anerkennung und der Bedeutung für die Anerkennung von Abschlüssen in allen türkischen Regionen Deutschland vergleichbare anerkannte Ausbildungsordnungen einzuführen. Inzwischen belaufen sich diese auf 45 modernisierte und ausformulierte und formalisierte Ausbildungsordnungen. Diese sind hier in diesem Sonderband der ibv in ihren wichtigsten Bestandteilen wiedergegeben.

Die Redaktion und der Unterzeichner dieser Vorbemerkungen besorgen Interessenten gerne die gesamte Ausbildungsordnung und sind behilflich beim Übersetzungstransfer.

Zunächst sollen diese übersetzten Ausbildungsordnungen einer groben Information und einer ersten Einschätzung der Anforderungen in diesen Ausbildungsberufen in der Türkei dienen.

Wem können nun diese Informationen nutzen?

- Die Berufsbildungspolitik erhält dadurch einen Einblick in die ausbildungsberuflichen Anforderungen der größten Gruppe ausländischer Mitbewohner, soweit sie eine solche Ausbildung in der Türkei begonnen bzw. auch beendet haben;

- darüber hinaus erhalten Betriebe, die sich mit dem Gedanken tragen, Jugendliche aus der Türkei vor bzw. nach deren Abschluß in Deutschland in eine Ausbildung oder Arbeitsstelle zu übernehmen, eine brauchbare Information über vorhandene Qualifikationen pro Ausbildungsberuf; (teilweise auch interessant für die Ausbildung

in Unternehmen mit Inhabern türkischer Herkunft<sup>2)</sup>);

-weiterhin können diese Informationen für junge türkische Erwerbstätige interessant sein, die sich mit Rückkehrabsichten tragen und die sich über in der Türkei geltende Anforderungen in vergleichbaren Berufen orientieren möchten <sup>1)</sup>;

- speziell für die Berufsbildungsberatung dürften die übersetzten Grundinhalte der türkischen Ausbildungsordnungen ebenfalls von Interesse bei der Beratung von türkischen jugendlichen Erwerbstätigen sein (auch für die türkische Berufsberatung);

- die Angaben in den Ausbildungsordnungen sind von ergänzendem Wert für die Berufsbildungsstatistik und -forschung in beiden Ländern und für die Öffentlichkeitsarbeit der zuständigen Ministerien hier und in der Türkei.

Ulrich Degen (Bundesinstitut für Berufsbildung (BIBB) Bonn

---

<sup>1)</sup> Aus einer Auswertung des BIBB „Zur Lebens- und Berufssituation von türkischen Jugendlichen“ (Dagmar Beer-Kern, unter Mitarbeit von Bernhard Dresbach u. Martina Jurisch (Wissenschaftliche Diskussionspapiere, Heft 15, BIBB, Berlin 1994)) geht hervor, daß von jungen türkischen Erwerbstätigen zwischen 15 und 30 Jahren rund 5 % in die Türkei kurzfristig (rund 4 % innerhalb der nächsten drei Jahre) zurückkehren wollen. Insoweit gibt es für die Information über Ausbildungsordnungen ein gewisses Potential auch in Deutschland.

<sup>2)</sup> Hier könnten die Aktivitäten der vom BMBF und BMAS gemeinsam eingerichteten Koordinierungsstelle Ausbildung in ausländischen Unternehmen -KAUSA - von Interesse sein und Multiplikatorfunktion ausüben.

## Berufswahl

Türkische Schulentlassene nutzten mit 57 % gegenüber 43 % der Kontrollgruppe das Beratungs- und Informationsangebot der Bundesanstalt für Arbeit mehr. Dabei lag der Schwerpunkt auf der Einzelberatung. Bei den Gründen für den Verzicht auf Beratung und Information durch die Bundesanstalt sind kaum Unterschiede zwischen den Untersuchungsgruppen festzustellen.

**Tabelle 6: Grund für Nichtberatung - in % -**

|                          | andere Nationalitäten | Türken |
|--------------------------|-----------------------|--------|
| Unwissenheit             | 8,5                   | 13,6   |
| Mißtrauen                | 2,7                   | 2,8    |
| Nicht nötig              | 21,3                  | 19,3   |
| Studium                  | 9,6                   | 7,8    |
| Gleich Arbeit            | 7,2                   | 9,4    |
| wußte, was ich wollte    | 15,2                  | 9,4    |
| Deutsche Freunde beraten | 0,5                   | 0,3    |
| Ausl. Bekannte beraten   | 0,2                   | 0,5    |
| sonst. Infos             | 0,7                   | 2,4    |
| Stellung gefunden        | 22,4                  | 17,0   |
| Berufsausbildung         | 3,7                   | 1,1    |
| Formale Gründe           | 1,5                   | 4,1    |
| Kein bes. Grund          | 4,3                   | 2,7    |
| Sonstige                 | 2,2                   | 9,6    |
| Total                    | 100,0                 | 100,0  |

n = 1.010

Türkische Befragte wußten tendenziell weniger seltener nach der Schule, was sie werden wollten und waren auch weniger informiert über das Beratungsangebot. Faßt man die genannten Gründe zusammen, die aus der Sicht der Befragten eine Berufsberatung und

-Information nicht notwendig erscheinen ließen - wie z.B. gleich Arbeit gefunden, Studium etc. - so beträgt dieser Anteil bei den Türken 55 % und bei der Kontrollgruppe 64 %.

Bei den verschiedenen Personen bzw. Institutionen, die auf die Berufswahl einen Einfluß ausüben können, unterscheiden sich türkische Jugendliche nicht von den anderen Nationalitäten.

Tabelle 7 : Einfluß "groß" bei der Berufswahl - in % -

|                           | andere Nationalitäten | Türken |
|---------------------------|-----------------------|--------|
| Vater                     | 44                    | 43     |
| Mutter                    | 31                    | 25     |
| Geschwister               | 11                    | 11     |
| andere Verwandte          | 11                    | 9      |
| ausländische Freunde      | 8                     | 9      |
| deutsche Freunde          | 7                     | 8      |
| Lehrer an früherer Schule | 14                    | 16     |
| Berufsberater/-in         | 13                    | 16     |
| Betriebspraktikum         | 7                     | 8      |

Mehrfachnennungen

Unabhängig von der Nationalität steht der Einfluß des Vaters an vorderster Stelle gefolgt von der Mutter und der Berufsberatung bzw. des Lehrers an der früheren Schule. Die Unterschiede zwischen den Türken und der Kontrollgruppe sind statistisch nicht signifikant.

## Ausbildungsplatzsuche

Den Ausbildungswunsch setzen türkische Jugendliche im gleichen Umfang wie die anderen Nationalitäten in die konkrete Ausbildungsplatzsuche um. Dabei suchen junge Türken im Vergleich zu anderen eher Fertigungs- und weniger Dienstleistungsberufe.

**Tabelle 8: Gesuchter Ausbildungsplatz im Bereich....**

|                       | Dienstleistung |    |    | Fertigung |    |    |
|-----------------------|----------------|----|----|-----------|----|----|
| Rang                  | 1.             | 2. | 3. | 1.        | 2. | 3. |
| andere Nationalitäten | 43             | 41 | 41 | 51        | 53 | 53 |
| Türken                | 37             | 35 | 22 | 57        | 59 | 72 |

Türken suchen deutlich nicht nur weniger Berufe im Dienstleistungsbereich, sie weichen auch eher - als Notlösung - auf Fertigungsberufe aus. Während der Anteil der anderen Nationalitäten, die Dienstleistungsberufe suchen recht stabil bleibt, sinkt der entsprechende Wert bei den Türken von 37 % (1. Nennung) auf 22 % (3. Nennung) zugunsten der Fertigungsberufe. Dabei stand das Interesse an dem Beruf bei der Berufswahl für beide Untersuchungsgruppen im Vordergrund.

Türkische Ausbildungsplatzsuchende hatten sich bei durchschnittlich 8,6 Betrieben (Kontrollgruppe: 6,3 Betrieben) und somit häufiger als die anderen Nationalitäten beworben. Außerdem dauerte ihre Ausbildungsplatzsuche mit durchschnittlich 7,4 Monate einen Monat länger.

**Tabelle 9: Ausbildungsplatzsuche**

|                       | Anzahl der<br>Bewerbungen<br>bei Betrieben | Anzahl der Zusagen<br>(1) : (2)<br>Durchschnitte |     | Dauer der<br>Ausbildungs-<br>platzsuche |
|-----------------------|--------------------------------------------|--------------------------------------------------|-----|-----------------------------------------|
|                       | (1)                                        | (2)                                              | (3) | (4)                                     |
| andere Nationalitäten | 6,3                                        | 1,3                                              | 4,8 | 6,4                                     |
| Türken                | 8,6                                        | 1,4                                              | 6,1 | 7,4                                     |

Zwar unterscheidet sich die durchschnittliche Anzahl der Zusagen kaum zwischen den Untersuchungsgruppen, sie mußten sich jedoch häufiger bewerben, um dies zu erreichen. Weiterhin ist der Anteil der Türken, die keine Zusage erhalten haben mit 22 % deutlich höher als die der Kontrollgruppe (13 %). Angesichts der schlechteren schulischen Vorbildung der jungen Türken, brauchen sie für die Ausbildungsplatzsuche eine längere Zeit und sind insgesamt gesehen auch weniger erfolgreich- Hinzu kommt, daß sie mit 79 % (KG: 86 %) nicht so oft ihren Wunschberuf erlernen können **und** mit 13 % gegenüber 6 % der Anderen doppelt so häufig angeben, daß sie eine außerbetriebliche Ausbildung durchlaufen würden. Mehr Türken als anderen Nationalitäten haben ihren Ausbildungsplatz über das Arbeitsamt gefunden und unabhängig von der Nationalität hat rund ein Viertel durch Bewerbungsschreiben und ca. ein Fünftel durch eigenen Nachfragen bei Betrieben Erfolg bei der Ausbildungsplatzsuche gehabt.

**Tabelle 10: Ausbildungsplatz gefunden durch . . . . . - in % -**

|                     | andere Nationalitäten | Türken |
|---------------------|-----------------------|--------|
| Arbeitsamt          | 34,4                  | 39,0   |
| Eltern              | 16,9                  | 9,3    |
| Freunde             | 12,7                  | 15,4   |
| Lehrer              | 4,4                   | 10,4   |
| Anzeige             | 4,1                   | 2,4    |
| Ausschreibung       | 10,8                  | 9,9    |
| Praktikum           | 10,9                  | 6,0    |
| Nachfrage — — t     | 21,5                  | 19,8   |
| Bewerbungsschreiben | 23,8                  | 24,2   |
| Sonstige            | 2,4                   | 4,3    |

Mehrfachnennungen

n = 718

Mehr türkische Jugendliche als andere durchlaufen eine Ausbildung in der Industrie aber auch im öffentlichen Dienst und weniger oft im Handel und im Handwerk.

**Tabelle 11: Auszubildende nach Ausbildungsbereich - in % -**

|                     | andere Nationalitäten | Türken |
|---------------------|-----------------------|--------|
| Landwirtschaft      | 1,2                   | 0,6    |
| Handwerk            | 52,1                  | 47,2   |
| Industrie           | 12,1                  | 19,6   |
| Handel              | 14,8                  | 9,4    |
| Öffentlicher Dienst | 5,7                   | 12,9   |
| Freie Berufe        | 4,9                   | 6,7    |
| Sonstige            | 9,2                   | 3,6    |
| Total               | 100,0                 | 100,0  |

n = 708

Durch den höheren Anteil türkischer Auszubildender in der Industrie, wo es sich häufiger als im Handwerk um Großbetriebe handelt, werden 31 % der jungen Türken (KG: 17 %) in Betrieben mit mindestens elf Auszubildenden ausgebildet.

Befragt nach den Gründen gegen eine Berufsausbildung, nennen die Jugendlichen an erster Stelle den Zwang bzw. den Wunsch gleich Geld verdienen zu müssen bzw. zu wollen.

**Tabelle 12: Gründe für Nichtaufnahme einer Berufsausbildung,**  
- in % -

|                                                | andere Nationalitäten | Türken |
|------------------------------------------------|-----------------------|--------|

| wollte eigentlich gleich zurückwandern         | 1,2                   | 0,8    |
| Sonstiges                                      | 30,4                  | 22,4   |

Mehrfachnennungen

n = 982

Der Wunsch gleich Geld verdienen zu wollen ist bei türkischen Jugendlichen leicht ausgeprägter als bei den anderen, die wiederum im Vergleich zu den Türken doppelt so häufig nicht wußten, was sie werden wollten.

### Ausbildung und Perspektive

Die Ausbildungsbeteiligung türkischer Jugendlicher (bezogen auf Jugendliche bis unter 18 Jahren) liegt mit 32 % höher als die der anderen.<sup>1)</sup> Diese höhere Quote geht allerdings ausschließlich auf die hohe Ausbildungsbeteiligung der männlichen Befragten (39 %) zurück. Die Türcinnen haben mit 26 % demgegenüber eine signifikant niedrigere Ausbildungsbeteiligung. Mit der Ausbildung sind die türkischen Jugendlichen zufriedener als die anderen, obwohl weniger von ihnen die Möglichkeit hatte, den Wunschberuf zu erlernen.

**Tabelle 13: Zufriedenheit mit der Ausbildung - in % -**

|                      | andere Nationalitäten | Türken |
|----------------------|-----------------------|--------|
| möchte aufhören      | 1,1                   | 0,7    |
| ist schwer           | 6,1                   | 8,1    |
| ist notwendiges Übel | 29,6                  | 21,2   |
| ist ganz gut         | 41,8                  | 34,8   |
| macht richtig Spaß   | 21,4                  | 35,2   |
| Total                | 100,0                 | 100,0  |

n = 219

Richtig Spaß macht es 35 % der Türken, aber nur 21 % der anderen. Türkische Jugendliche erhalten allerdings parallel zur Ausbildung häufiger als andere eine zusätzliche Unterstützung und Förderung

---

<sup>1)</sup> Vgl. dazu Schweikert, K.: Ausbildungsbeteiligung ausländischer Jugendlicher. Zwischenbericht zum BIBB-Forschungsprojekt 1.503, Berlin 1991, S. 4

(Türken: 30 %; KG: 19 % ) . Meist handelt es sich dabei um Fachtheorie, Deutsch und Mathematik. Es gibt kaum nationalitätsspezifische Unterschiede bei der Einschätzung der Übernahme in ein Beschäftigungsverhältnis nach der Ausbildung.

Tabelle 14: Einschätzung der Übernahme in ein Beschäftigungsverhältnis nach der Ausbildung - in % -

|                      | andere Nationalitäten | Türken |
|----------------------|-----------------------|--------|
| sicher               | 21,1                  | 28,9   |
| wahrscheinlich       | 47,9                  | 38,0   |
| wahrscheinlich nicht | 4,2                   | 3,5    |
| nein                 | 8,5                   | 9,9    |
| weiß nicht           | 18,3                  | 19,7   |
| Total                | 100,0                 | 100,0  |

n = 213

Türkische Auszubildende sind mit 29 % gegenüber 21 % sicherer nach der Ausbildung übernommen zu werden. Diese hier beschriebene insgesamt hohe Übernahmesicherheit schlägt sich auch in der tatsächlichen Übernahme der Ausländer nach der Ausbildung nieder, wobei sich die türkischen Jugendlichen von den anderen nicht signifikant unterscheiden.

**Tabelle 15: Übernahme nach der Ausbildung (Befragte mit abgeschlossener Ausbildung) - in % -**

|                              | andere Nationalitäten | Türken       |
|------------------------------|-----------------------|--------------|
| Befristeter Arbeitsvertrag   | 18,8                  | 14,2         |
| Unbefristeter Arbeitsvertrag | 55,4                  | 52,4         |
| Nicht übernommen             | 21,5                  | 26,9         |
| Trifft nicht zu              | 4,3                   | 6,5          |
| <b>Total</b>                 | <b>100,0</b>          | <b>100,0</b> |

n = 411

Junge Türken haben es im Vergleich zu anderen Nationalitäten etwas schwerer einen Ausbildungsplatz zu finden, erzielen jedoch eine höhere Ausbildungsbeteiligung. Durchlaufen sie allerdings eine Berufsausbildung, sind sie deutlich zufriedener mit ihrer Ausbildung und werden letztendlich - wie die anderen Nationalitäten auch - in einem hohen Maße vom Ausbildungsbetrieb übernommen.

#### Arbeitssituation

Die Arbeitslosenquote der befragten Türken lag mit 18 % unter der der Kontrollgruppe (20 %)<sup>2)</sup> allerdings arbeiten deutlich mehr türkische Erwerbstätige als un- bzw. angelernte Arbeiter.

---

2) Anteil der Arbeitslosen an allen Erwerbstätigen, Auszubildenden und Arbeitslosen.

Tabelle 16: Berufsstatus - in % -

|                           | andere Nationalitäten | Türken |
|---------------------------|-----------------------|--------|
| ungelernte Arbeiter       | 13,2                  | 32,2   |
| angelernte Arbeiter       | 24,1                  | 31,5   |
| Facharbeiter              | 30,7                  | 19,3   |
| Meister                   | 2,1                   | 0,7    |
| einfacher Angestellter    | 21,3                  | 12,5   |
| leitender Angestellter    | 2,6                   | 2,1    |
| mithelfend in der Familie | 6,0                   | 11,7   |
| Total                     | 100,0                 | 100,0  |

n = 1.118

Die türkischen Befragten weisen somit kaum Unterschiede zum Berufsstatus ihrer Eltern auf. Ein sozialer Aufstieg von der Eltern- zur Kindergeneration fand hier nicht statt.

Tabelle 17: Berufsstatus der Eltern (Auszug) - in % -

|                | Vater |        | Mutter |        |
|----------------|-------|--------|--------|--------|
|                | Rest  | Türken | Rest   | Türken |
| un- /angelernt | 34,2  | 64,9   | 33,4   | 38,8   |
| Facharbeiter   | 25,1  | 16,2   | 9,8    | 0,5    |
| Meister        | 7,3   | 1,5    | 2,0    | 0,1    |

65 % der Väter der Türken nahmen eine un- bzw. angelernte Tätigkeit wahr und mit 64 % gilt dies auch für den Berufsstatus ihrer Kinder.

Die schlechte Position der Türken auf dem Arbeitsmarkt liegt aber auch daran, daß 22 % nur über einen befristeten Arbeitsvertrag verfügen (KG: 14 %) und sie auch eine niedrigere Stellung in der Betriebshierarchie einnehmen: So haben 11 % der türkischen

Arbeitnehmer deutsche Untergebene, während dies bei anderen Nationalitäten immerhin 18 % sind.

- <sup>f</sup> Vor diesem Hintergrund würden auch 26 % der jungen Türken ihren Arbeitsplatz gern mit Deutschen tauschen (KG: 12 % ) . Dabei
- begründen die türkischen Befragten mit 15 % (KG: 4 %) diesen Wunsch vorrangig damit, daß die deutschen Arbeitskollegen eine
  - angenehmere Arbeit hätten.

Im Vergleich zu der Kontrollgruppe arbeiten die jungen Türken mit 42 % häufiger in der Industrie (KG: 22 % ) . Während bei den anderen Nationalitäten das Hotel- und Gaststättengewerbe mit 22 % eine erhebliche Rolle spielt, fällt dies bei den jungen Türken mit 6 % kaum ins Gewicht.

Ca. zwei Drittel der Kontrollgruppe hält es für ausgeschlossen bzw. eher unwahrscheinlich in den nächsten Jahren arbeitslos zu werden, während dies bei den türkischen Befragten nur 44 % waren.

**Tabelle 18: Befürchtung arbeitslos zu werden - in % -**

|                       | andere Nationalitäten | Türken |
|-----------------------|-----------------------|--------|
| wahrscheinlich        | 4,9                   | 9,0    |
| möglich               | 29,6                  | 47,6   |
| eher unwahrscheinlich | 45,5                  | 29,6   |
| ganz ausgeschlossen   | 20,0                  | 13,9   |
| Total                 | 100,0                 | 100,0  |

n = 1.298

Der Berufsstatus und die Arbeitssituation türkischer Befragter im Vergleich zu den der anderen Nationalitäten ist in wichtigen Bereichen deutlich ungünstiger und sie drückt sich auch in größeren Schwierigkeiten am Arbeitsplatz aus. 54 % der Türken aber nur 41 % der Kontrollgruppe formulieren Schwierigkeiten am Arbeitsplatz, wobei 59 % Probleme mit deutschen Kollegen bzw. Vorgesetzten angegeben (KG: 47 % ) . Folgerichtig zeigt sich, daß die türkischen Befragten auch eine niedrigere

Arbeitsplatzzufriedenheit formulieren; 33 % gegenüber 42 % sagen, die Arbeit würde ihnen richtig Spaß machen.

Zum Zeitpunkt der Befragung waren 192 Türken arbeitslos. Dabei zeigt sich, daß türkische Arbeitslose länger als die anderen Nationalitäten arbeitslos sind. 44 % der arbeitslosen Türken geben an, schon 10 und mehr Monate arbeitslos zu sein. Von dieser langen Arbeitslosigkeit waren allerdings nur 30 % der anderen Nationalitäten betroffen. Aufgrund der im Vergleich zur Kontrollgruppe niedrigeren beruflichen Qualifikation, fällt es türkischen Arbeitslosen offensichtlich schwerer einen neuen Arbeitsplatz kurzfristig zu finden.

#### Indikatoren der Integration

Türkische Jugendliche leben öfter in einem Wohnumfeld und Wohnhaus mit überwiegend ausländischen Nachbarn.

Tabelle 19: Wohntrafeld - in % -

|                       | andere Nationalitäten | Türken |
|-----------------------|-----------------------|--------|
| überwiegend Ausländer | 15,9                  | 21,3   |
| überwiegend Deutsche  | 49,2                  | 48,4   |
| gleich verteilt       | 25,5                  | 26,6   |
| weiß nicht            | 9,4                   | 3,7    |
| <b>Total</b>          | 100,0                 | 100,0  |

n = 3.384

Aber nicht nur das Wohnumfeld, auch die unmittelbaren Nachbarn der türkischen Jugendlichen sind häufiger Ausländer. Faßt man dabei die Kategorie "nur" und "mehr" ausländische Familien zusammen, sind die Unterschiede zwischen den Nationalitäten ausgeprägter.

**Tabelle 20: Wohnhauszusammensetzung - in % -**

|                            | andere Nationalitäten | Türken       |
|----------------------------|-----------------------|--------------|
| nur ausländische Familien  | 7,4                   | 12,6         |
| mehr ausländische Familien | 18,5                  | 22,9         |
| mehr deutsche Familien     | 45,5                  | 43,6         |
| gleich viele               | 19,4                  | 17,4         |
| weiß nicht                 | 9,2                   | 3,5          |
| <b>Total</b>               | <b>100,0</b>          | <b>100,0</b> |

n = 3.378

Während 36 % der jungen Türken in einem Haus mit ausschließlich bzw. mehr ausländischen Familien wohnen, beträgt dieser Anteil bei den anderen Nationalitäten 26 %.

Hinzukommt, daß noch nicht einmal halb so viele Türken 3 % im Vergleich zur Kontrollgruppe (8 %) in einer Eigentumswohnung leben.

Durchschnittlich stehen den türkischen Jugendlichen kleinere Wohnungen zur Verfügung, was sich vor allem bei der Wohnungsgröße in Quadratmetern zeigt.

**Tabelle 21: Durchschnittliche Wohnungsgröße**

|                                     | andere Nationalitäten | Türken |
|-------------------------------------|-----------------------|--------|
| Größe der Wohnung (m <sup>2</sup> ) | 47,3                  | 35,2   |
| Anzahl der Räume                    | 3,4                   | 3,3    |

Diese durchschnittlich kleineren Wohnungen müssen türkische Befragte meist mit mehr Personen teilen. Im Schnitt liegt die Haushaltsgröße der Türken bei 4,2 Personen (KG: 3,5).

Die befragten Türken verbringen mit 28 % häufiger als andere ihre Freizeit mit den Eltern. Darüberhinaus verbringen sie überproportional oft ihre Freizeit mit Menschen der eigenen Nationalität und wesentlich seltener mit Deutschen.

**Tabelle 22: Nationalität der Freizeitpartner - in % -**

|                       | andere Nationalitäten | Türken |
|-----------------------|-----------------------|--------|
| eigene Nationalität   | 52,2                  | 75,2   |
| andere Nationalität   | 19,0                  | 14,7   |
| Deutsche              | 54,0                  | 29,3   |
| keine Freizeitpartner | 0,9                   | 2,1    |

Mehrfachnennungen

n = 3.407

Während bei den anderen Nationalitäten deutsche Freizeitpartner an der ersten Stelle stehen, sind sie bei Türken verschwindend gering. Drei Viertel der jungen Türken verbringen demgegenüber ihre Freizeit mit anderen Türken. Vor diesem Hintergrund identifizieren sich die türkischen Befragten vorrangig mit ausländischen Jugendlichen und Erwachsenen und weniger mit deutschen.

**Tabelle 23: Die meisten Gemeinsamkeiten mit ... (Rangfolge der Nennungen)**

|                            | andere Nationalitäten | Türken |
|----------------------------|-----------------------|--------|
| ausländischen Jugendlichen | 1                     | 1      |
| ausländischen Erwachsenen  | 3                     | 2      |
| deutschen Jugendlichen     | 2                     | 3      |
| deutschen Erwachsenen      | 4                     | 4      |

Während die Kontrollgruppe sich vorrangig mit Gleichaltrigen identifiziert, ist bei Türken das entscheidende Identifikationsmerkmal die Nationalität.

Türken fühlen sich in der Bundesrepublik nicht so wohl als die anderen.

**Tabelle 24: Wohlfühlen in der Bundesrepublik - in % -**

|              | andere Nationalitäten | Türken |
|--------------|-----------------------|--------|
| sehr wohl    | 51,7                  | 37,3   |
| relativ wohl | 31,2                  | 36,3   |
| es geht      | 13,8                  | 22,2   |
| etwas unwohl | 3,0                   | 2,9    |
| sehr unwohl  | 0,3                   | 1,3    |
| Total        | 100,0                 | 100,0  |

n = 3.385

Während sich 52 % der Kontrollgruppe "sehr wohl" fühlt, sind es bei den Türken nur 37 %. Demgegenüber liegen die negativen Äußerungen der Türken zur Lebenszufriedenheit um ca. 10 % Punkte höher als bei der Kontrollgruppe. Neben den Arbeits- und **Lebensbedingungen**, die bei **türkischen** Befragten tendenziell schlechter sind als bei den anderen, stellen sie auch häufiger Vorurteile bei Deutschen fest.

**Tabelle 25 : Vorurteile gegen Ausländer - in % -**

|                                    | andere Nationalitäten | Türken |
|------------------------------------|-----------------------|--------|
| Ja, ein großer Teil der Deutschen  | 19,7                  | 29,6   |
| Ja, ein kleiner Teil der Deutschen | 47,4                  | 54,3   |
| Nein                               | 33,0                  | 16,1   |
| Total                              | 100,0                 | 100,0  |

n = 3.386

Neben diesen festgestellten Vorurteilen der Deutschen, erleben türkische Jugendliche mehr Nachteile als andere Ausländer der Kontrollgruppe. So geben nur 49 % der Türken an noch nie Nachteile als Ausländer in der Bundesrepublik erlebt zu haben (KG: 69 %). Offensichtlich werden türkische Jugendliche stärker als andere von der deutschen Außenwelt abgelehnt. Trotzdem sind türkische Jugendliche im gleichen Umfang wie andere Nationalitäten bereit, die deutsche Staatsbürgerschaft anzunehmen.

Tabelle 26: Annahme **der deutschen** Staatsbürgerschaft - in % -

|                | andere Nationalitäten | Türken |
|----------------|-----------------------|--------|
| gern           | 17,9                  | 16,5   |
| nur zusätzlich | 42,2                  | 44,4   |
| nein           | 39,9                  | 39,1   |
| Total          | 100,0                 | 100,0  |

n = 3.326

Auch bei der Aufenthalts- bzw. Rückkehrabsicht sind keine signifikanten Unterschiede festzustellen.

Tabelle 27: Rückkehrpläne - in % -

|                        | andere Nationalitäten | Türken |
|------------------------|-----------------------|--------|
| will nach Hause zurück | 7,2                   | 4,8    |
| einige Jahre bleiben   | 21,4                  | 19,4   |
| immer bleiben          | 28,5                  | 26,6   |
| keine Pläne            | 30,1                  | 36,6   |
| in ein anderes Land    | 2,3                   | 2,3    |
| weiß nicht             | 10,5                  | 10,3   |
| Total                  | 100,0                 | 100,0  |

n = 3.369

Weniger Türken äußern den Wunsch zurückkehren zu wollen. Allerdings mündet dies nicht in einem höheren Anteil mit dauerhafter Bleibeabsicht, sondern führt bei türkischen Jugendlichen zu einer größeren Planungsunsicherheit.

Die Gründe für bzw. gegen einen dauerhaften Aufenthalt zeigen z.T. erhebliche Unterschiede zwischen den Untersuchungsgruppen. Neben der Familie, die für alle Nationalitäten entscheidend für die weitere Aufenthaltsplanung ist, stehen für türkische Befragte folgende Gründe für die Rückkehr- bzw. Bleibeabsicht im Vordergrund: die freundlichere Behandlung durch Deutsche, die Rechtssituation, Arbeits- und Aufenthaltserlaubnis. Die Kontrollgruppe nennt demgegenüber eher den Arbeitsmarkt im Herkunftsland, den Arbeitsplatz in der Bundesrepublik und den Wunsch des Partners als Grundlage für ihre weitere Aufenthaltsplanung.

## BILDUNGSSITUATION AUSLÄNDISCHER JUGENDLICHER

Wir führen zur Zeit eine Befragung bei jungen Ausländern und Ausländerinnen durch.

Ziel der Befragung ist es, mehr über das Leben, die Arbeit und die Ausbildung junger Ausländer in der Bundesrepublik zu erfahren. Daraus sollen dann Maßnahmen zur Verbesserung ihrer Situation in Ausbildung und Beruf abgeleitet werden.

Wir möchten Sie deshalb bitten.- uns eine Reihe von Fragen zum Thema Ausbildung und Beruf zu beantworten. Ihre Antworten werden selbstverständlich absolut vertraulich behandelt und niemandem zugänglich gemacht.

FRAGE  
NR.:

FRAGE UND ANTWORTMÖGLICHKEITEN

18b

Warum haben Sie gerade in diesem Beruf(en)  
nach einem Ausbildungsplatz gesucht?

Karte 3 11-18

18c

Bei wie vielen Betrieben haben Sie sich um  
einen Ausbildungsplatz beworben?

Betriebe

INT.: Bei "weiß nicht(mehr)" bitte '99' eintragen

17-18

18d

Wie lange haben Sie alles in allem nach einem  
Ausbildungsplatz gesucht?

Monate

INT.: wenn Befragte(r) immer noch sucht, bitte "88" ein-  
tragen, wenn sofort gefunden, bitte "00" eintragen!

19-20

18e

Haben Sie bei Ihren Bewerbungen auch an Einstellungs-  
tests teilgenommen?

1 ja  → 18f  
2 nein  → 18g

21

18f

Wie würden Sie diese Tests beurteilen?

22-25

18g

Haben Sie eine Zusage von einem Ausbildungsbetrieb er-  
halten, oder war das nicht der Fall? Wenn ja, wie viele  
Zusagen waren das?

Zusagen → 19

INT.: für "keine Zusage erhalten" bitte '00' eintragen;  
bei "keine Zusage" WEITER MIT  → 18h

26-27

WIEDER AN ALLE

34

Ich lese Ihnen jetzt verschiedene Dinge vor, die  
ihr Leben wichtig sein können. Sagen Sie mir bitte zu allen  
genannten Dingen, wie wichtig sie für Sie sind, indem Sie  
Schulnoten verteilen zwischen 1 und 6. Also z.B.: wenn Sie  
das Familienleben sehr wichtig finden, sagen Sie 1, ist es  
wichtig, dann sagen Sie 2, ist es nicht so wichtig, die 3,  
ist es unwichtig, die 4, und ist es f(5r Sie sehr unwichtig,  
die 5 oder ganz unwichtig, die 6.

NR.:

FRAGE UND ANTWORTMÖGLICHKEITEN

57

Ich habe hier eine Liste mit den verschiedensten Nationalitäten. Bitte nennen Sie die drei davon, die Ihnen in ihrer Lebensart am sympathischsten erscheinen (außer Ihrer eigenen).

INT.: LISTE 23 vorlegen

- 1 Italiener
- 2 Schweizer
- 3 Spanier
- 4 Franzosen
- 5 Griechen
- 6 Schweden
- 7 Türken
- 8 Amerikaner
- 9 Jugoslawen
- 10 Briten
- 11 Portugiesen
- 12 Polen
- 13 Deutsche
- 14 Holländer

12-25

58

INTERVIEWERFESTSTELLUNG:

Falls unklar, bitte gesprächsweise Rechtsform der Wohnung ermitteln:

- 1 Mietwohnung
- 2 Untermiete
- 3 Wohnheim
- 4 Eigentumswohnung/eigenes Haus
- 5 Sonstiges, und zwar: .....

26

58a

Wieviel qm hat diese Wohnung?

INT.: Fläche eventuell schätzen

qm

\_\_\_\_\_

27-29

58b

Und wie viele Zimmer hat die Wohnung?

INT.: Anzahl Räume ohne Bad, Küche, Toilette, Flur, Abstellräume

\_\_\_\_\_ Räume

30-31
